Gouache: The Secret Superpower Paint  
August 24-25, 2023

Supply List

PAINTS:
Winsor & Newton Designers Gouache - Introductory Set, plus a tube of Titanium White (recommended). If you prefer to pick out your own colors, I would advise a split primary palette in addition to Titanium White and Zinc White.

BRUSHES:
A good introductory set would include a few round and few flat watermedia brushes, such as Princeton’s Aqua Elite Series 4850 Synthetic Brushes - Set of 4. If you are purchasing individual brushes, I would recommend:

- 0 round
- 2 round
- 4 round
- 8 round
- ¼” angle shader (or flat)
- ½” wash (flat)
- ¾” wash

PAPER:
Arches Watercolor Pads are great for gouache. I would recommend the 9"x12" cold press or hot press. The cold press will have some tooth and texture, the hot press will have a smooth surface.

WATER CUP (I like the Faber-Castell Clic & Go Water Pot)

GRAPHITE PENCIL for sketching out your composition

PALETTE I recommend a non-porous flat palette at least 9"x12" for laying out and mixing gouache in the studio (plastic, glass, ceramic, enamel.) I would recommend avoiding the palettes that have a bunch of little paint wells in them.
