Brushes

3 - 5 will be needed at minimum. You can use bristle type in sizes that are 1/4" - 3/4" in width in either a "flat," "bright," or "filbert" shape, and synthetic brushes in the same size and shape. The type of brush hairs - bristle versus synthetic - is a personal preference, I like both types for different things, so I would suggest getting at least one bristle type to try it and the rest could be synthetic which are a bit easier to use.

Other

- Pad of palette paper
- Paper Towels (Viva brand that is NOT textured work well)
- Metal palette/mixing knife
- **Odorless** mineral spirits such as Gamsol made by Gamblin.
- Bring an apron or paint shirt (or wear old clothes)
