### **“The Three Hedgehogs”**

**Thalia Springborn**

**3<sup>rd</sup> Grade**

**Homeschool**

Once there were three hedgehogs. One hedgehog was named Emma, another was named Alana, and another was named Anna. One sunny day, Alana was making a toad house. Anna was helping Emma make lunch. After lunch, they went outside, and Alana finished her toad house. Emma went berry picking, and Anna made a garden. After all of that, they went swimming in a nearby pond. They had lots of fun, and then it was time for bed. They went to bed and had good dreams. They lived happily ever after.

The End.
